LinkedIn: www.linkedin.com/in/yogita2006/
Github: <https://github.com/yogitasharma3372>

Email: yogitasharma3372@gmail.com
Mobile: +91 9024380168

SKILLS

Languages: C++, Python, C, Java
Tools/Platforms: MS SQL, LeetCode, GeeksforGeeks, HackerRank, Scikit-learn, Numpy, Pandas, XGBoost
Soft Skills: Problem-Solving, Team Player, Adaptability

PROJECTS

TaskFlow – Priority Task Scheduler | Java, Spring Boot, REST API, DSA | [GitHub](#) Jun' 26

- Developed a priority-based task scheduling system using custom implementations of Min Heap, Stack, Queue, Trie, and Graph, enabling efficient task management, dependency handling, and undo functionality.
- Designed and implemented RESTful APIs using Spring Boot for task creation, completion, dependency management, autocomplete search, and execution-order generation through Topological Sort.
- Built an interactive web dashboard using HTML, CSS, and JavaScript to visualize task priorities, dependency graphs, and sorting algorithm performance while benchmarking Merge Sort and Quick Sort implementations.

IPC Debugger – Inter-Process Communication Monitoring Tool | C/C++, Operating Systems, IPC | [GitHub](#) Dec' 25

- Developed an interactive IPC debugging tool supporting Pipes, Message Queues, and Shared Memory for real-time inter-process communication and process monitoring.
- Implemented process synchronization, resource allocation, and deadlock detection using Mutexes, Semaphores, and Resource Allocation Graphs to identify communication bottlenecks and resource conflicts.
- Built a graphical monitoring dashboard to visualize process states, IPC workflows, message flow, synchronization events, and system logs for efficient debugging and analysis.

Starbucks Clone Website | HTML, CSS, JavaScript, Responsive Web Design | [GitHub](#) Sep' 24

- Developed a responsive Starbucks-inspired website with an intuitive user interface, enabling seamless navigation and an engaging user experience.
- Implemented responsive web design principles to ensure compatibility and optimal performance across desktop, tablet, and mobile devices.
- Designed interactive coffee ordering and customization features, enhancing user engagement while demonstrating front-end development and UI/UX design skills.

TRAINING

Board Infinity (EdTech Platform) Jun' 26-Jul' 26

Data Structure and Algorithm-JAVA

- Acquired strong foundations in Data Structures and Algorithms, covering Arrays, Linked Lists, Stacks, Queues, Trees, Graphs, Heaps, and Hash Maps.
- Practiced sorting, searching, recursion, and algorithm design techniques to develop optimized and scalable solutions for coding problems.
- Enhanced analytical and problem-solving abilities by applying DSA concepts to real-world programming challenges and interview-oriented questions.

CERTIFICATES

Python HackerRank	Sep' 26
Java(Basic) HackerRank	Sep' 26
Data Management System Infosys	Jul' 26
DBMS Oracle	Apr' 26
Programming in C++ Infosys	Aug' 25

EDUCATION

LOVELY PROFESSIONAL UNIVERSITY	Phagwara, Punjab
Bachelor of Technology	Aug' 24 – Present
Computer Science and Engineering; CGPA: 7.38	

TAGORE GROUP OF EDUCATION	Surajgarh, Rajasthan
Intermediate	Mar' 22 – May' 23
PCM; Percentage: 75%	
Percentage: 91.1%
